

Convertible Check Lanes

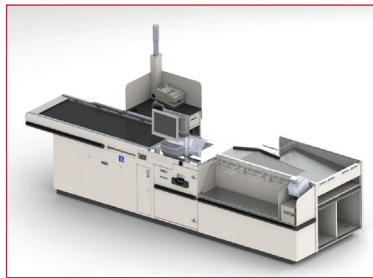

One Lane. Multiple Functions. The Flexible Solution for Cashier or Customer Checkout.

At Pan-Oston, we've spent years perfecting a self-checkout design that can help our grocery and retail partners maximize their floor space, labor efficiency and customer service efforts.

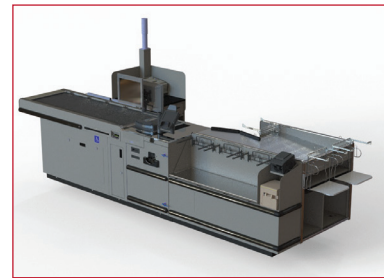

Introducing the next generation in checkout solutions:
The Convertible Check Lane.

Our Convertible Check Lane has two mode options - full-service mode and self-service mode - which means that issues like staffing availability can no longer force you to turn lanes off. You can finally provide exactly what your customers are looking for: *"All Lanes Open at All Times."*

Available in a wide variety of customizable options, our **Convertible Check Lanes** are the perfect solution to move customers quickly and efficiently through your front end.

Contact your Pan-Oston Sales Representative today to learn more about how our Convertible Check Lanes can be the right solution for your business.

Convertible Check Lanes

Switching modes is easy on our Convertible Check Lane. We mount your scanner scale on a rotating base that can be pulled out and rotated to face either the cashier or customer.
